PROFILE SUMMARY

Ambitious Junior Developer with React, HTML, and CSS skills, seeking to grow as a full-stack developer. Eager to contribute to a dynamic team while expanding expertise in front-end and back-end technologies. Committed to continuous learning to build scalable web applications in a fast-paced environment..

WORK EXPERIENCE

Fynal Solution   Sep 2024 – Present
Frontend Developer

- **Development Responsive and User-Friendly Interfaces:**
  Designed and implemented a modern, responsive UI using React.js, Tailwind CSS to ensure a seamless user experience across different devices and screen sizes.ensuring a mobile-first approach for optimized performance on smartphones and tablets.

  State Management and API Integration:
  Managing application state efficiently using Redux and Context API with Axios and Fetch to fetch, update and display real-time data dynamically. Ensuring smooth communication between frontend and backhend services.

- **Performance Optimization and Cross-Browser Compatibility:**
  Enhancing website performance by implementing lazy loading, code splitting and efficient rendering techniques. Fixing cross-browser compatibility issue to ensure consistent functionality and design across Chrome, Firefox, Safari and Edge.

- **Version Control and Team Collaboration:**
  Utilizing Git and GitHub for version control and collaborating with teams to ensure smooth project execution and feature implementation following Agile methodologies
